Job description

Job description

Supervision : Yes

Main activities:

National coach and technical leader for skateboarding:

- Contributes to the design of the 2024 Olympic strategy
- Manage and lead a performance project
- Contributes to the development of the national skateboard coaching staff
- Contribute to the establishment of a culture of high performance in skateboarding through research and sports science
- Contribute to the development and deployment of the Federal Performance Project for skateboarding
- Contribute to the analysis and setting of sports objectives, expertise on projects
- Coaches and supports the "top athletes" of French skateboarding
- Proposes and implements the selection path for the reference competitions

- Establishes the calendar for the preparation and participation in the reference competitions
- Rely on data to reinforce the performance strategy
- Is the driving force behind the master plan and the increase in the number of equipment for the discipline
- Participates in meetings of the National Technical Directorate
- Reports on its activities to the National Technical Director

Specificities and constraints of the position:

- High availability and adaptation to the specific environment of an emerging discipline
- Great autonomy and professional mobility

Description of the employer :

The Sports Directorate defines the national strategy of the State and designs and interministerial public policies for sports. It implements these policies, or promotes their implementation, relying in particular on the networks of decentralized services, its public establishments and technical sports advisors (CTS). In particular, it has jurisdiction over sports federations, in accordance with the delegation or approval it grants them.

The French Federation of Rollerblading and Skateboarding:

With more than 10 million practitioners in France, rollerblading, skateboarding and scootering are generating a strong popular following. In August 2016, skateboarding entered the closed circle of Olympic disciplines. During its first participation in the Olympic Games in Tokyo in 2021, France was among the 5 nations to qualify at least 5 athletes, with a presence in each event. Of the 5 athletes, 3 have reached the finals.

Skateboarding will also be scheduled in 2024 in Paris and the FFRS has an ambition to succeed with a goal of medals in street and bowl.

Some figures :

- 9 disciplines
- 61.897 members in 2019-2020 (about 4000 in skateboard)
- 900 clubs (about 175 in skateboard for more than 200 educators)
- 13 leagues (regional)
- 56 Committees (departmental)
- 5 million skateboarders in France
- 54% women / 46% men (17% women for skateboarding)
- 57% of the members are under 18 years old
- 64% of the members are under 25 years old
- Federal budget: 5 million euros

-18 state executives, 30 employees

To achieve this goal, the FFRS is committing resources to structuring the discipline, coaching, preparing teams, participating in benchmark events and international circuits, optimizing performance and innovation.

To this end, it wishes to surround itself with the skills necessary to achieve this ambition.
